Microsoft has every right to include in "their products" their own products!
christ who can tell a company not to sell or give away anything.

sounds like marx and lenin are alive and well in your town buddy.

any of us, big or small rich or poor can give away or sell cheaper anything, at our discretion.

look what you retards did with at-t now everyone with a phone suffers because the govt is afraid of big companies with the wearwithall to oppose their marxist policy. soon computer technology because of you will cost so much it will be out of the reach of ordinary folks. sorta like 50 dollar phone bills that used to be 10 dollars. wow that competition huh. GROW A BRAIN!!!!!!!

microsoft is the net and we don't mind. without them technology will grind to a halt (we can hear sheep is that what you want comrade) if they pull their patents, and just stop (and they can) you will have to steal their ideas and force someone to pick up where they left off that is treason and treachery! they have the ball let em run with it! go away.

God help us this shouldn't even be happening.
let microsoft pave the way! get the hell out of our lives we don't want you here. we really, really don't want you here.

E.E
